Guelph's got it

Red Car Service... for more than just the airport

There is so much more to Red Car Service than trips to and from the regional airports, and that is our focus today, as we present a range of other services that this well established company has to offer. And who knows, you may even be inspired to embark on new adventures once you read about the many roads that can be travelled in the comfort and safety of this luxury fleet.

Red Car Service has expanded and ventured into new territories, especially in the past five years or so, primarily in the form of chartered travel. Tour groups, parties, escorted trips - all manner of options are available to anyone planning a trip somewhere - anywhere - in our province. Following are just some of the ideas for a fun, worry-free day or night away from it

all.

Stuck for something to do on a weekend? Got a birthday or anniversary coming up? Why not plan a fabulous wine tour for you and your friends or family down to the Niagara Wine Region? The trip begins with the first call to Red Car Service. They will help with the itinerary, or you can plan the schedule yourself. Groups from 2 to 24 people can be catered for, and you won't have to worry about driving or parking or even tasting a wee glass or two, since you will have your designated driver taking care of you and your group.

Or, how about a wee flutter at the race-track or a night at the casino? Wouldn't it be nice to climb aboard a comfortable climate controlled vehicle with a group of your friends, and enjoy a worry free night

out without stressing over traffic? You'll enjoy yourself so much more knowing that you don't have to deal with the drive home late at night.

Perhaps the theatre is more your style, with a nice dinner beforehand. Go on, push the boat out. But make sure it's in the shape of a luxury chauffeur-driven vehicle provided by Red Car Service, and specifically chosen to cater for the size of your group. You could go as a couple for a romantic worry free evening, or grab a group of your friends and create fun filled and priceless memories as you enjoy a fabulous night out.

Red Car Service can even do extended trips, with stopovers. For example, how about an overnight trip to the Tulip Festival in Ottawa this spring? Or a multi-stop customized tour around our province? The options are only limited by your imagination and requirements. Red Car Service will work with your schedule or help you to customize that special tour.

Of course, we are approaching the wedding season. You may have already booked your cars, but have you thought about providing shuttle service for your guests? Red Car Service can provide shuttles to the hair and beauty salon for your bridal party, or take family members to and from the church, photo venue and reception. Let Red Car Service take the worry out of transporting your wedding party and guests to the

venues. This will allow you to relax and enjoy your special day all the more.

Let's not forget business needs, either. If you are in charge of arranging conferences or corporate travel for your employer or business, keep the number for Red Car Service handy. They can provide a wide range of services to accommodate the needs of business travelers and conference shuttles to and from company premises to the hotel.

So you see, there is far more to this company than getting folks safely to and from the airport, although they excel at that side of the service as well. They continue to provide first class service to the airports in Toronto (including the Island Airport), Hamilton, Waterloo and Buffalo.

Red Car Service is available 24 hours a day, seven days a week. You can also follow them on Facebook and Twitter for valuable information on upcoming events.

And please check them out online, where they are currently offering a special online option of a \$99 return trip from the Delta Hotel in Guelph to Lester B. Pearson Airport.
